To whom it may concern:

In 2010 Sony Pictures Imageworks decided to establish a presence for their animation and vfx production division in Vancouver. Through our real estate group, we were introduced to Fusion Projects who eventually joined with us to help analyze potential buildouts for the various real estate properties being considered in Vancouver.

Fusion worked closely with our California facilities group to coordinate all their planning efforts, which are very difficult and complex in nature. Fusion managed the core elements of our AV, IT and Security requirements, working well with our various teams from California. They did a great job in the project and construction management process, keeping us on task and keeping track of weekly meetings and communications.

Since this time Fusion has been working side by side with our team on our continued expansion in the Yaletown area. Fusion continues to be a valuable partner of Sony Pictures Imageworks, assisting us with our design and construction needs.

I would like to express my appreciation to Nick Boyd and the Fusion team and would not hesitate to recommend them to any company looking at any type of relocation or buildout. They did a great job!

All the best,

A handwritten signature in black ink that reads "Rick Mischel". The signature is written in a cursive, flowing style.
