

FEATURED STORY

AVISON YOUNG'S VISION IS TO BUILD THE LEADING GLOBAL REAL ESTATE SOLUTIONS COMPANY. THEIR CULTURE IS KEY, AND RECOGNIZING THAT THEIR CURRENT AND FUTURE TALENT NEEDED TO HAVE AN ENVIRONMENT THAT SUPPORTS THIS VISION IS CRITICAL TO THEIR SUCCESS.

Working with Avison Young's Vancouver leadership team, Fusion assessed the needs and assisted in creating the overall project mandate and established the budget. Understanding that the look and feel had to be reflective of Avison Young's own DNA, Studio B Architects were brought in to bring the desired look and feel to life. The project was just over 20,000 square feet over two floors connected by an open feel interconnecting stair. The design has an extensive use of wood paneling, glazing wall systems, and smoked glass, which when combined with hard surface on the counters, flooring and reception does make the overall look and feel no less than awesome; it is edgy and represents the Avison Young brand impeccably. Fusion managed the overall project from concept to completion ensuring all the key deliverables were met.

SPECIAL THANKS

As a very hectic 2015 winds down, we'd like to thank all of our new and returning clients plus our real estate, design and trade partners for making 2015 a very memorable year. With five new office buildings hitting the downtown market and the increased presence of the Tech sector within our marketplace, we all have been kept on our toes and we couldn't have done it without a strong team of partners. On November 26th we had a very successful client party at Joey Bentall, where approximately 200 guests helped kickoff the holiday season in our typical fashion. We thank those of you who attended for your generous donations that enabled Fusion to donate over \$1,100 to The Province Empty Stocking Fund. **On behalf of everyone here at Fusion Projects, we hope you and your families have a great finish to 2015 and a very prosperous 2016.**
